New Horizon English Boarding Secondary School – Palpa, Nepal

Some Projects

- **fewaMerchant:** A versatile web, PWA, and mobile application tailored for merchants, enabling efficient transaction analysis, settlement processes, and support requests. It enhances operational efficiency and decision-making through insightful analytics and a user-friendly interface.
 - **Expense Tracker:** A simple tool for monitoring your expenses. Easily register and log in to add your expenses, and view detailed analytics categorized by expense types. Keep track of your expenses for better budgeting and responsible expenditure.
 - **Manage Landing Page:** A fully responsive and visually appealing landing page for "MANAGE." This design ensures optimal user experience across devices, showcasing key features and benefits while effectively engaging visitors. The layout is modern and user-friendly, aimed at capturing the essence of the brand and encouraging user interaction.
 - **Product Lists with Cart:** This project features a dynamic products list page where users can easily add and remove items from their cart. Changes are instantly reflected, displaying the updated list of products, their quantities, and the total amount. The user-friendly interface enhances the shopping experience, making it simple to manage selections and track spending.
 - **Bento Grid:** This project showcases a complex layout that is fully responsive, ensuring a seamless user experience across various devices and screen sizes. The design effectively balances functionality and aesthetics, allowing users to navigate effortlessly while interacting with intricate elements.
 - **Aim Trainer:** Click and hit the targets in this fun project! Users can register and log in using their credentials or Google account to track their scores. Keep track of your scores and aim to improve your personal best.
